EXPERIENCE

Software Engineering

Kenzie Academy | Indianapolis | October 2019 - October 2020

- Twelve-month project-based software engineer program focused on project-management, team building , GitHub implementation, hands on coaching , and interactive instruction.
- Worked in a team environment to create a twitter clone, using proficiency in Node.js, HTML, CSS, Javascript and React to implement user authentication, message posting, toggle like system.
- Learned basic SQL data tables, and practiced SQL architecture in a hands on instruction environment.
- Collaborated with UX (user experience) students on projects for team building and leadership experience.
- Studied and researched unit tests, and unit test functions in Python.
- Developed proficiency in Git Source Control.
- Collaborated in a GitHub environment to create a javascript and CSS connect 4 web app. https://paulracisz.gitlab.io/connect-four/

Sales Team

Menards | Taylor | September 2019 - Present

- Follow up with customers on roofing, siding, deck and exterior lumber architecture.
- Advise guests on their home improvement projects; providing development estimates and excellent design strategy.

Portfolio Examples

- A web application that uses the geolocation API to parse the user's location, and displays 5 photos from the Flickr API with geo tags near that place. https://paulracisz.gitlab.io/photos-from-here
- A web game built in javascript that includes an interactive rock, paper, and scissors game against an AI opponent, with graphics, lighting, sounds and a live scoreboard. https://paulracisz.gitlab.io/game-of-chance/

Volunteer Work

Victory Gym Veteran's Health Club

A non-profit organization focused on providing peer support groups for EMT's, First responders, active duty service members, and returning veterans with PTSD.

Sanitized facility, provide new membership and merchandise purchase services at the counter, and give health and nutrition advisory to members in need.
Fundraised to facilitate new gym equipment. All equipment is donated.
